Sara Saju

Computational Interaction Designer

I'm a designer and creative technologist who enjoys shaping meaningful digital experiences. Exploring how people interact with technology and bringing ideas to life through intuitive interfaces, data-driven stories, and interactive systems is the most productive method I utilise. I'm passionate about HCI, learning tools and designing for real-world impact.

Experience

Clearly Blue Digital

Design Intern | May 2024 – Present

Created instructional presentation decks and designed collaterals such as brochures and reports for NGOs.

Squad Technologies Pvt. Ltd.

UI/UX Intern | May – July 2025

After 3 months of training, designed responsive UI prototypes and web layouts for client projects using Figma. Produced digital collateral including social media posts, banners, posters, and short promotional videos.

Adeptic Creative Labs

Design Intern | July 2024

Created cybersecurity e-learning modules using Articulate Storyline.

Srishti ACM SIGCHI

Project's Team Member | August 2025 – Present

Part of the projects team working on an HCI and accessibility initiative to design and develop a machine-learning-based ASL–ISL sign language translation system.
